or kidney trouble, and have tried a number of remedies from different physicians. More than a year ago, one of our local druggists induced me to try Dr. Miles' Anti-Pain Pills and after using them some three months I found a decided improvement in my kidneys, and I am glad to say that I hope soon to be fully restored to health."

Former Judge of City Court,

In this issue we are publishing a large advertisement of a clubbing proposition which should interest many Chronicle readers. It means a saving of 95 cents as against any other way you can get these publications. The most interesting feature of the deal is that each clubbing offer enables you to get the Chronicle at a price less than the regular subscription rate. Look the ad over carefully and select such combinations as you wish.

E. O. Hembree moved his well drilling outfit to Grundy county, near Tracy City, and arrived there Dec. 24. He left Monday night for the scene of his work and will likely be absent some time as he has a good business in sight drilling wells. Mr. Hembree has had many years experience in the drilling business and is a very capable man in that line. He has a very complete equipment for the business.

W. M. Stone announces in this issue for Tax Assessor. He is a son of that estimable citizen, "Uncle Pat" Stone, Vandever. He is a young man of good address, blessed with a large measure of good common sense and we feel sure will discharge the duties of the office with care, energy and close application, should the people favor him with election. Just what special claims he has to present to the people for the office we are not aware, but he will make it his business to carry that message directly to the people.

The Crossville Band is arranging for a minstrel and band entertainment January 14. A splendid program has been prepared and the occasion promises to be a rare treat to those who enjoy good band music. The entertainment will be given in the court house at night and should, and doubtless will, bring out a goodly crowd. It will be under the direction of Prof. F. G. Walton, band master, and will not only prove very entertaining but will show the marked proficiency that the band has attained to under their able instructor. The enterprise should have the hearty support of all our people for the proceeds are to go to defray expenses of the band and the purchase of other instruments.

Mr. Renfro has been working for the wholesale grocery firm of Matthews-Phillips company, Nashville, but the firm went out of business voluntarily with the close of the year, which caused him to seek a new field of employment. In every capacity in which he has worked Mr. Renfro has made good and there is every reason to believe he will make good in his new field. As a result of a great abundance of good things for Christmas we failed to mention a very toothsome present given us by E. S. Justice, Otter Creek. He brought us some sweet potatoes of a variety seldom seen. They were so dry and mealy one would have thought they had just been dug. We enjoyed them and thank Mr. Justice for his kindness.

Last week we received a subscription from Senator T. E. Wilson which pays for the paper to his address for the twenty-first continuous year. Senator Wilson is a most ardent democrat while the editor is on the other side of the political fence and during the course of the management of this paper we have been strongly opposed to each other along political lines, but so far as we are aware our personal friendship has never been marred by our political differences. That is as it should be and we trust it will so remain to the end.

They leave numerous friends here who will wish them prosperity and happiness wherever their home may be.

The steer is worth several dollars, but it cost him only a few cents to learn where it is. The people of the county read the Chronicle very closely, which makes it an excellent advertising medium. It nearly always happens when a man begins to neglect reading the Chronicle he misses something of real value to him. A Creston subscriber failed Christmas week to read the Chronicle closely and as a result he brought some butchered hogs to feed & Burnett after they had quit buying, which caused him considerable trouble and very likely a loss of far more than the cost of the Chronicle for one year.
